## YouTube Screen Capture MP4 Videos List/Links

Notes: These videos are also available on the internet at [www.youtube.com/Christian Evangelist Printing Training](http://www.youtube.com/Christian%20Evangelist%20Printing%20Training). A longer list with links is found on page three of this document.

The folder, 5 Steps to New Life contains scanned parts from a graphic arts negative. Without a scanner, using Photoshop, or a page layout program that allows one to "place" or "add picture" one can assemble together the digital parts in Microsoft Word, Microsoft Publisher, Adobe Pagemaker, Adobe Indesign, Quark XPress, or another page layout program to make a digital two color gospel tract that prints two to a letter size sheet printed on the front and back side. One may also learn how to clean up the scanned images in Adobe Photoshop.

MP4 Screen Capture Training Videos Compilation on dual layer DVD disk for FTS and those wanting to convert printed documents to reasonable quality digital documents in the PDF file format for Color Laser and inkjet printers. Maintaining color separations for printing on a offset printing press have been ignored and the once separated "spot" colors of the Pantone Matching System are combined into a color composite.

### You Tube Video URLs for posted videos under *Christian Evangelism Printing Training*

- 1) Scanning Art to Computer Medium <http://youtu.be/vOTbb14a0ao>  
About 10 minutes
- 2) Quick overview of Home Desktop Publishing Office Equipment <http://youtu.be/LMCfcWDgcyk> About 10 minutes
- 3) Desktop Publishing in Home Bindery Equipment [http://youtu.be/NXjRF\\_I6lc](http://youtu.be/NXjRF_I6lc) About 7 minutes
- 4) Portable Digital Voice Recording <http://youtu.be/CgCVc0HozM4> About 6 minutes.
- 5) Voice Editing with Audacity software <http://youtu.be/3qa6YK1PSb8> About 9.5 minutes.
- 6) Burning an Audio Recording to a CD. About 8 minutes long. <http://youtu.be/E-caJyxYHDw>
- 7) Designing & Labeling a CD with Epson inkjet software and CD printer. <http://youtu.be/hqfgGf6Cwoc>
- 8) Reproduce printed tract by scanner and Photoshop part 1  
<https://www.youtube.com/watch?v=Y0Kp3oXk-y0>
- 9) Reproduce printed tract by scanner and Photoshop part 2  
<https://www.youtube.com/watch?v=kFVtdoVdErI>
- 10) Turning DTP (Desktop Publishing) documents into a universal PDF for anyone to open and view.  
<http://youtu.be/q0rskqel-r0>
- 11) Making PDFs from Microsoft Word, Publisher, Indesign, (& Photoshop?)  
<https://www.youtube.com/watch?v=q0rskqel-r0&t=35s>

- 12) Adding a Form Field (Text Box) to a PDF document so Ministries with the limited free Adobe Reader version can type in their custom contact information so it will appear on the document when they print it. <http://youtu.be/z9wda1FKTks>
- 13) Solving PDF making problems. <http://youtu.be/3fQA1MiEyd4>
- 14) Graphics Arts Negative to Digital Positive by Scanner & Photoshop  
<https://www.youtube.com/watch?v=ahp9SHPXNZ0>
- 15) 2 color Press Negatives to digital computer document for color laser or inkjet printers  
<https://www.youtube.com/watch?v=byfy8IYX2mo>
- 16) 2 color Press Negatives to digital composite (merged colors) computer document for color laser or inkjet printer <https://www.youtube.com/watch?v=082gc22WUqU&t=176s>
- 17) [Adding a Pantone Matching System “Spot Color” to a Graphic using Adobe Photoshop CS5](#) – In addition to adding color text, one can also enhance a document by changing the “placed” graphics by adding a solid color to them.
- 18) [Placing the Two Color Graphics made in Photoshop into Indesign](#) – Then add colored text, and “preview” the color separations before printing the document with the Postscript software printer driver.
- 19) [Converting Graphic Images into 2 Color Duotones](#) – Use Adobe Photoshop CS5 to change a gray scale photograph, or art picture into a composite of two designated Pantone Matching System colors. The colors will match the text in the document so it can be printed in one pass through a two color printing press.
- 20) [QR Codes Enhance Printed Matter](#) – QR Codes can be generated for free and added to printed matter as links to websites and additional information found on the Internet. Downloading a free QR Code reader App on a tablet or smart phone, uses the device’s camera to take one to the online address hidden in the code.
- 21) [Poster Making by Tiling in Indesign CS5](#) – Wide Format and Plotter printers for making larger posters cost \$800 or more. An alternative is to use the “Tiling” feature in Adobe Indesign CS5. The document is printed in pieces on common letter or legal size sheets, then assembled like a puzzle and laminated. Here is an example of how it’s done.
- 22) [Network External Hard Drive](#) – After years of using a USB external hard drive and a Network Hard drive, the Network drive is my choice for the following reasons.
- 23) [E-tract from 4 Print Document](#) – Turn a laser printer tract document into a read order PDF interactive e-tract for reaching more people at less expense. Includes posting the e-tract on a WordPress based website.
- 24) Reproducing Press Printed Tracts by Scanning printed copies, or, for better quality, the orthographic negatives from which the press plates were made. Involves using Adobe Photoshop CS5, Adobe Indesign CS5 page layout program, and Adobe Acrobat 9.0 Professional. This is a detailed step by step Show and Tell in tree parts. [Part 1](#) is 51 minutes, [Part 2](#) is 20 minutes, [Part 3](#) is 25 minutes. The next part is #25 below.

25) [Graphic arts negatives to two color digital computer document using scanner and Photoshop CS5](#), for printing a gospel tract on an inkjet or color laser printer. Key points are changing the gray scale negatives to Pantone matching system colors, then dropping out the conflicting white background, and changing the *Image Mode* to CMYK so the two scans can be combined and aligned in one printable document, without the colors turning back to black again. The color separations are maintained in the *Layers Pallet* for printing on a printing press if desired.

**Possible Future videos:**

Using the free Drop Box cloud storage to send large file sizes to someone who has a limit on their e-mail attachment file size.

Updating the contact address on a PDF document without having to go back to the Indesign document

Finding Foreign language type fonts needed to layout text for Gospel tracts sent from translators in other countries (e.g., Orriya Easter tract for India).
